Falling Timber Farm

Glenn and Yvonne Ridder; John, Heidi, Madi and Ben Ridder
www.fallingtimberfarm.com

Dear fellow cattle producers,

Welcome to our 12th Annual Bull and Female Sale. Our Hereford cattle represent 45 years of genetic selection and over 10 generations of selective breeding on average. The founding principles of modest birthweights, female quality, temperament, growth and carcass quality are what FTF strives to produce.

We are offering the highest cut of Hereford yearling bulls, as well as, a select number of 18 month old Hereford and Angus bulls that are ready for service. All bulls are hand fed for optimum gain, not maximum gain. By doing this we have realized many benefits over time, including better feet and less fat thickness. This improves the bulls ability to cover cows without heating up in the spring and gives them the opportunity to grow on green grass during their first breeding season.

This group of bulls are an excellent choice for the commercial or registered cattlemen. They will make baldy females with easy calving, performance, teat and udder quality, and have slick hair coats suited for fescue. The bulls have the potential to make a big impact on the breed for future generations of cattle. A select group of bulls shot themselves to the top of the breed on EPD sort on the AHA database. They are unmatched and have the phenotype to go with it!

The females offered are consistent FTF quality. The spring and fall 5 year old females with heifer calves are the best set we have ever offered in a sale. We have several extra special lots including one of the greatest cows to ever walk our pastures, FTF MS REVOLUTION 626D.

We are retaining ½ semen interest in several of the bulls as well as ½ embryo interest in some of the females. We will only collect bulls and flush females if that is also the desire of buyer and they wish to do so for their benefit as well. We have seen so much genetic progress being made with genetic testing and research and we are devoted to improving and building on these for the future.

When you purchase a bull on our sale, the price you pay includes feed and yardage until April 18th. You are buying a bull that is ready for spring service and spring grass.

Due to the global pandemic we will be taking extra precautions, such as providing a box lunch, masks will be available, and we'll social distance. The sale will be broadcasted by DVAuction.com, it's a great option for those who may be in quarantine or live far away.

We are extremely grateful for your business. Last year our sale was during the first week of the COVID-19 quarantine and boy were we nervous. We decided the sale must go on, and we were blown away by the support and quality of the sale. We sure appreciate each and every customer, worker, viewer, bidder, and buyer in attendance or virtually! As always, we are here to assist you in any way possible to help you achieve your goals. We look forward to seeing you on March 20th.

Sincerely,

John Ridder

. 12th Annual Bull & Female Sale .

Falling Timber Farm

Saturday March 20th, 2021 • 16789 Ridder Rd, Marthasville, MO 63357

DIRECTIONS

From Warrenton: Take Hwy 47 south 13.9 miles from the Main Street stoplight. Turn right on Ridder Rd. Watch for Falling Timber Farm sign.
From Washington: Take Hwy 47 north 8.9 miles from the 5th Street stoplight. Turn left on Ridder Rd. Watch for Falling Timber Farm sign.

ACCOMMODATIONS

Marthasville: Boone Monument B&B 636-236-3929
Warrenton: Holiday Inn Express 636-456-2220
 Baymont Inn & Suites 636-456-6000
Washington: Super 8 636-390-0088
 Best Western Plus 636-390-8877
 Old Dutch Hotel 636-390-4400

SCHEDULE

Cattle available for viewing starting at 2pm.
 Live auction begins at 5:30pm.
 Food served before the sale.

BULL PICK UP OR DELIVERY

We offer free bull delivery within 100 miles for this sale.
 Further away? We will work with you.
 Of course, you may pick up your own bull(s).
 We will care for your bulls until April 18th with no extra charge.

RETAINING SEMEN & EMBRYO INTEREST

We are retaining 1/2 semen interest in several of the bulls as well as 1/2 embryo interest in some of the females. Collection or flushes are not required, but can occur if we both choose to do so with expenses and revenue split 50/50.

GUARANTEE

Bulls have passed semen test on 3/4/21 by Dr. Spencer Thompson.
 Bulls are performance tested and ultrasounded.
 Hereford bulls are DNA tested free of genetic defects.
 We offer the standard American Hereford Association breeding guarantee.

 13.3 -1.2 58 94 1.6 25.8 31 60 1.4 1.5 0.52 0.12

Missouri is a heavily pigmented, very attractive and well balanced calving ease bull from a rock solid lineage of cows. His dam is 10 years old and descends from the 926Y cow family. She records 8 head with an average birth weight ratio of 93.1, weaning weight ratio of 101.6, and a yearling weight ratio of 102. Her first bull calf, FTF Revolution 353A, was purchased by the Truman family in Iowa and used alongside Prime Product. 353A has left a mark on their herd with females as good as they get.

Missouri is a homozygous polled 3/4 brother to /S Mandate 66589 ET with even better EPD's for CE, BW, SC, SCF, Milk, and Ribeye. We hope to A.I. to Missouri in the future.

Retaining 1/2 semen interest.

Homozygous polled.

046H has untouchable EPD's! No animal in the breed can match his combination of traits when plugging his EPD's in the AHA database as minimum requirements. He is a big marbling bull as well and ratioed 110 in our herd.

This is the kind of bull we have been hoping to produce! Untouchable is deep ribbed and big hiped with good pigment. His mother truly does have a perfect udder. She is a 3/4 sister to the mother of FTF Relevant 831F.

Retaining 1/2 semen interest. Homozygous Polled.

We had high expectations for Torque and he has exceeded them in many ways. His ability to sire well marked, pigmented cattle with a good sized frame along with a great hip and strong top is as good as any we have seen. His sons are big and powerful and the largest sire group in this sale. His females are stunning and his teat and udder scores are in the top 1% of the breed. Trait leader for WW, YW, SC, SCF, M&G, Udder, Teat, CW, BMI, BII, and CHB.

Owned with Huth Polled Herefords, Oakfield, WI; Select Sires Inc., Plain City, Ohio; Select Sires - Canada. Homozygous polled.

Prime Product does so many things well in terms of growth and efficiency. He served as a Reference Sire in the Olsen Ranch Test and blew away the competition on average daily gain and adjusted feed per gain. Trait leader for SC, SCF, Milk, M&G, CEM, CW, Marb, BMIM, BII AND CHB. Deceased. Owned with Truman Farms, Prescott, IA; marketed through BEEF-360.

Relevant is one of the most complete heifer bulls in the breed from a balanced EPD standpoint. His CE and BW numbers are for real. He has calves on the ground here and at Jordan Herefords, they have an attractive look to them and grow like crazy. His dam, 626, is one of the best cows FTF ever produced! Relevant is entered in the National Reference Sire Program at Olsen Ranch, Harrisburg, Nebraska.

Owned with BEEF-360, Brookfield, MO; Jordan Herefords, Warrenton, MO. Homozygous polled.

6623 was utilized as a pasture sire for several years and his progeny are prevalent in this catalog. We expect his offspring to stand the test of time with maternal traits and longevity bred into his pedigree. His dam was flushed to Porterhouse 455 at 12 years of age which produced several high sellers in this sale. His full brother 6615 is a dominant sire here as well.

Homozygous polled.

9.6	0.0	54	85	0.6	20.8	34	61	1.4	1.4	0.60	0.06

Cattlemen take notice. This cow has a great udder, deep ribbed, and is an eye catcher, but just wait until you see how she can raise a calf! She records 3 calves with an average BW ratio of 96.3 and WW ratio of 109.3. She'll most likely be a DOD by sale day. Her first calf was FTF Relevant 831F, owned with Jordan Herefords and BEEF-360. He's the best calving ease bull we have ever used. We are 100% committed to selling our 5 year olds w/ heifer calves at side, otherwise this gal would not be offered for sale. Retaining 1/2 embryo interest in the cow and calf. Heifer calf, FTF Connie 172J, born 1/29/21, 65 lbs, sired by FTF Confidence 6113D at side.

Owned by Ben Ridder. 6442D is a very productive female with good udder and teat structure. Her son sells as Lot 24. Her dam, 225Z, was Ben's first show heifer and she won Supreme Champion Female over all breeds at the Washington Town & Country Fair as a two year old. Oddly enough, her paternal granddam, 950, was John's last and best show heifer. The fall baby at side is a dandy and will continue on this great line of females.

Bred AI on 11/23/20 to FTF Confidence 6113D and pasture exposed to FTF Confidence 6113D from 11/27/20 to 12/26/20 and then to FTF Powerhouse 9432G from 12/26/20 to 2/15/21.

BRED HEIFERS

The bred heifers offered this year are a really nice group and has something for everyone to choose from. The Torque daughters continue to impress with loads of volume and strong udder quality. Other sires include Dante, Tested, FTF Powerhouse 6427D, and FTF Humdinger 4303B. These heifers come from some of our best cow families, 181Y, 950, Rose, and Princess. The dams of Lots 54- 56 are DOD's and many of the other bred heifers have DOD's in their pedigree. All but one of these heifers have been AI bred to Shaw's Mandate bull and pasture exposed to FTF herd bulls.
